BIO

compil3r builds melodic house, progressive and melodic techno sets around tension and release — patient, groove-led journeys that reward a room willing to go somewhere with him. He has played Chicago, Denver, Salt Lake City, Las Vegas and Jamaica, and produces hybrid events that put an in-person crowd and a global livestream audience in the same room.

Since August 2025 he has run **Pour Over Progressions**, a monthly daytime series at Magnífico Coffee Roasters, and for three seasons founded and organized **Techno Harbor**, a Leave No Trace beach party on the Chicago lakefront. His 2025–26 remixes and edits rework Lana Del Rey, Oklou, Miike Snow, DJ Seinfeld and Magdalena — free downloads on SoundCloud.
